

CHESTER WATER COMMISSION
CHESTER TOWN HALL
Board Meeting Minutes
25 October 2021

Members Present: Lyle Snide
Bob Daley
Kathy Engwer

Members Absent: none

Others Present: Bernie St. Martin (remote)

Meeting called to order at 5:05pm.

Item 1: Approved minutes from the 15SEP and 04 OCT meetings

Item 2: Reviewed daily sampling (raw water and water temperature) and twice weekly clearing well residual timing calculation requirements from the DEP ACO with the water operator. He said this was already being done. And will provide the Water Commission with a copy of this testing. Also discussed the ACO requirement for the water operator to maintain a daily log of distribution and treatment hours, which he indicated was also being done. He is also going to determine if the turbidity alarm/shutdown feature is installed and working.

Item 3: A discussion was held regarding how to conduct a detailed review of the ACO requirements before discussing any revisions/concerns with the DEP. It was decided that the documentation available is sufficient for the Commission to conduct the review while keeping the option to contract a technical consultant if necessary to complete the review.

Meeting adjourned at 6:00pm.

Submitted,

Lyle Snide, Chair, Water Commission
